

PROFESSIONAL SUMMARY

Results-driven Web Developer with experience in both front-end and back-end development, specializing in creating dynamic, user-centric websites, and digital marketing solutions. Proficient in modern web technologies, including React, Node.js, and MongoDB, as well as WordPress and other CMS systems. Demonstrated competence in successfully delivering client projects, ranging from web applications, e-commerce sites, business sites and blog platforms. Adept at integrating digital marketing strategies to enhance website performance and visibility.

Strong collaborator with a proven track record of translating client needs into innovative solutions, optimizing user experiences, and driving project success. Committed to continuous learning and applying best practices to stay ahead in the fast-evolving digital landscape.

WORK EXPERIENCE

Web Developer, NineFive Recruitment, Jan 2024 - Current

- Developed and maintained responsive front-end websites using React, improving user experience and accessibility.
- Implemented back-end services with Node.js, optimizing server performance and integrating APIs.
- Designed and managed databases with MongoDB, ensuring efficient data storage and retrieval.
- Collaborated with cross-functional teams to define project requirements and deliver tailored web solutions.
- Utilized version control systems like Git for code management and collaboration.
- Enhanced website performance through best practices in coding, including lazy loading, code splitting, and optimization.
- Debugged and resolved issues across the full stack, improving application stability and user satisfaction.
- Conducted code reviews and provided feedback to peers, fostering a collaborative development environment.
- Implemented security measures to protect user data and application integrity.
- Contributed to the development of documentation and guides for new features and best practices.

Web Developer, We Print Now, Jan 2022 - Dec 2023

- Specialized in front-end development and digital marketing solutions for a diverse range of client websites, including e-commerce, blogs, and business sites.
- Developed and customized websites using WordPress, tailoring themes and plugins to meet client needs and enhance functionality.
- Designed and implemented user-friendly interfaces and experiences, leading to increased client engagement and satisfaction.
- Delivered over 100 websites, consistently meeting project deadlines and client specifications.
- Integrated digital marketing tools and strategies, including SEO, Google Analytics, and social media platforms, to optimize website performance and visibility.
- Collaborated with clients to understand their goals and provided tailored recommendations for digital marketing and web design improvements.
- Utilized HTML, CSS, and JavaScript to create responsive and visually appealing web pages that adhered to industry best practices.
- Conducted website maintenance and updates, ensuring ongoing functionality and security.
- Implemented e-commerce solutions, including product catalogs, shopping carts, and payment gateways, to drive sales and improve user experience.
- Provided training and support to clients on website management and digital marketing best practices.
